Log Matching

Club Log will match QSOs where both parties have uploaded their log to Club Log, with a tolerance of ± 15 minutes. This can help you QSL contacts and to stay informed about log uploads that are relevant to your DXing progress.

A CACCIA DEL DX

IL DX SI LAVORA SEMPRE “FIGLI DI UN DIO MINORE”

LE DXPED “MINORI” NON SI TRALASCIANO

CI TENIAMO IN ALLENAMENTO

INCENTIVIAMO LE SUCCESSIVE DXPED

A CACCIA DEL DX

IL DX SI LAVORA ... ATTENENDOSI ALLE REGOLE

- 1) I will listen, and listen, and then listen again before calling.
- 2) I will only call, if I can copy the DX station properly.
- 3) I will not trust the DX cluster and will be sure of the DX station's call sign before calling.
- 4) I will not interfere with the DX station nor anyone calling and **will never tune up on the DX frequency** or in the QSX slot.
- 5) I will wait for the **DX station to end a contact before I call**.
- 6) I will always send my full call sign.
- 7) I will call and then listen for a reasonable interval. **I will not call continuously.**
- 8) I will not transmit when the **DX operator calls another call sign, not mine.**
- 9) I will not transmit when the **DX operator queries a call sign not like mine.**
- 10) I will not transmit when the **DX station requests geographic areas other than mine.**
- 11) When the DX operator calls me, I will not repeat my call sign unless I think he has copied it incorrectly.
- 12) I will be thankful if and when I do make a contact.
- 13) I will respect my fellow hams and conduct myself so as to earn their respect.
